

WHY CHOOSE US?

We Treat Your Pet As We Do Our Own.

The recommendations for care we make are based on what we know is the very best quality in medicine and surgery. Taking a systematic approach, we utilize our state-of-the-art diagnostic equipment to diagnose medical conditions before starting any treatments.

Our Care Is Focused on Dogs and Cats.

Our doctors and veterinary technicians are very knowledgeable because they dedicate their Continuing Education and experiences to only these species. Whether it's preventative or internal medicine, surgery or developing treatment plans, we provide the highest standard of care.

Customer Care Is A Top Priority.

We pride ourselves on providing clear, open communication about your pet's health, our

treatment plans, and our costs so that you may make informed decisions regarding your pet's health and well being.

A Highly Trained And Caring Team.

Our team consists of the best veterinary assistants and client care professionals. This team approach gives our doctors and veterinary technicians the time to focus on what they do best, treating your pet and providing you with excellent communication.

State-Of-The-Art Equipment.

Whether your pet needs an x-ray, ultrasound, ECG, lab work, or extensive surgery, we have the necessary equipment in-house.

Individualized Protocols.

Far from the "one size fits all" approach of some hospitals, we tailor our vaccination, anesthetic and sedation protocols to fit the needs of your pet.

Appointments Sooner Than Later.

We make every attempt to schedule appointments around your schedule; and when your pet is unexpectedly ill, we will make the time to provide the necessary care.

OUR DOCTORS

Our veterinarians are highly trained and experienced. Each one has special interests including surgery, emergency care, internal medicine and alternative/holistic medicine. A well rounded team enables us to provide a wide range of services in one convenient location.

- Dr. Drew Luce, owner, began Aldie Vet as a house-call practice. In 1999, Aldie Vet moved into the South Riding location. His expertise and interests are focused on breed related diseases, ultrasound, and surgery, including soft tissue, orthopedics and specialized cosmetic procedures.
- Dr. Beth Hood joined our team in 2001. She has extensive training and experience in emergency and critical care medicine.
- Dr. Caroline Pattie joined our team in 2008. Her special interests are in diagnostic imaging and holistic/alternative medicine.

We invite you to give us a try, you will not be disappointed. Bring this brochure to your first visit and receive a 10% discount.
